## PROFESSIONAL SUMMARY

Highly motivated and enthusiastic Computer Science Engineering (CSE) sophomore at VIT, Vellore with a strong academic background and a passion for technology. Possessing solid foundational knowledge in Front-End Web Development combined with excellent problem-solving skills. A quick learner with a keen eye for detail and a dedication to delivering high-quality results. Strong communication and teamwork abilities, with a proven track record of collaborating effectively with diverse groups to accomplish shared objectives. Seeking an opportunity to apply my skills and contribute to innovative projects while further developing my expertise in the field of web development.

## EXPERIENCE

### Front End Web Developer

VITrendz / India, Vellore

2023 - Now

I have been working part-time as a Front End Developer at VITrendz, Vellore for 3 months. I am currently working on developing high-quality web applications using React and HTML/CSS. My primary responsibility is to create efficient and optimized code and to ensure that the applications worked as expected across different browsers.

## EDUCATION

### BTech in Computer Science and Engineering

Vellore Institute of Technology, Vellore

2022 - Now

## SKILLS

HTML

CSS

JavaScript

React

Tailwind CSS

## PROJECTS

### Movie Tracker

A web application that allows users to keep track of the movies they watched. Built using React, the application features a search function, and a database that stores the user's watchlist. The application also displays information about each movie, such as the title, genre, release date, IMDb rating and synopsis. The application uses the OMDB API to fetch movie data from the IMDb. The source code is available on my GitHub.
